

FRAME

CHECKLIST

- Several lids of 200 g Cavendish & Harvey tins
- Golden spray paint
- Clothespins
- Glue Gun
- Spray
- Scissors
- Photos
- Macramé photo display
- Optionally, a compass and a pen to mark

STEP 1

Cut out the photos in a circle with a diameter of 9.4 mm. You can either print a frame directly on the pictures or you can use a compass to create a template with which you can draw the mark on the picture by hand.

STEP 2

Cover the work surfaces with paper. Spray the lids from the outside with varnish. Now glue the clips with the hot glue in the middle of the outside of the lid. Cover the work surfaces with paper. Shake the spray glue properly, spray the photos from the back and stick them in the lids.

STEP 3

Now you can hang the frames anywhere on the photo display.
