

TERRAZZO PEN HOLDER

CHECKLIST

- 1 empty 300 g Cavendish & Harvey jar
- Paper
- White modelling clay, air drying
- Black and green modelling clay
- Disposable gloves
- Rolling pin
- Lunch Box
- Cutter
- Ruler

STEP 1

Cut a 9 x 28.5 cm template from the paper. Put the disposable gloves on and knead small pieces of the white and black modelling clay into a grey paste. Form small balls out of all three shades. Then roll out the balls very thinly and let them dry overnight.

STEP 2

Crumble the dried dough sheets into small pieces with your fingers. Roll an area out of the rest of the modelling clay that is approx. 5 mm thick and slightly larger than the template. Moisten the mass with a little water, sprinkle the splinters over it and press on with the dough roller.

STEP 3

Use the template to cut the mass into shape. Now place the modelling clay around the glass and press it down. If chips fall off, you can simply press them back into the dough. Then let it dry.
